Business has been unusually brisk in the marriage license department of the Recorder's office the past week, where sixteen licenses for wedlock have been issued. In fact, Recorder O'Bannon reports that already this month there have been issued by him forty-seven such permits, and he is hopeful that he may be permitted to issue three more marriage permits today, which would bring the record up to fifty for the present month. Whether or not such briskness is an indication of improving general conditions is a question, but we are "hopin'" that it does.

Harry reports crop conditions this side of Perryville very similar to what they are in this community, but beyond Perryville there has evidently been more rain, and the crops look better, especially is wheat much heavier than in this community. He also reports the roads rather rough, though they averaged a speed of 20 miles an hour, and Harry said his mother stood it better than any of them, though all enjoyed themselves.

## LAUNDRY TALK

(By B. T. Geniges.)

Did you ever estimate the value of all your washable clothes, and consider what the saving would be if they would last—one-third, one-half, or again as long as they do now?

Soap and water is still the most economical treatment that clothes can have. Any substance that will eat the dirt out of goods will also destroy the fabric.

There were 177 at the Presbyterian Sunday School on last Sabbath. As 203 is the number of enrollment, this does not mean an unusual falling away for this season.

It is necessary, though, for us to be on our guard and not let the hot weather and the many diversions interfere with our worship. Loyalty to Christ means joy and faithfulness in His service. R. P. Taylor.

### Baptist

The superintendent of the Baptist Sunday School wants to know if YOU were absent last Sunday. Their attendance was again 249 (only one less than a quarter of a thousand) and had you been present, who knows but what their attendance might have passed the half-thousand mark? ## Battery Touring-Foresight

The best reason we can give you for having your battery looked to before you start to tour is that it's just plain common sense. A good deal the same as taking along a spare tire, or an extra set of spark plugs, or a couple of headlight bulbs.

If it's right we'll say so. If it isn't we'll do what's necessary to bring it up to the mark.

Whether it's a Willard or not it will be given the benefit of Willard Standards of Battery Service.
